WRSPM Quiz

TOTAL POINTS 3

1. WRSPM stands for:

1 / 1 point

- ☐ Wide, Requirement, Software, Planning and Model.
- ☒ World, Requirement, Specification, Program and Machine.
- ☐ None of the above.

Correct

That is right! The WRSPM model identifies the two main components, the external world and the system, they intersect in the specification which are our representation of the users requirements. The second component is the system, which is composed of specifications, program and the machine on which the program is going to run.

2. Looking at the difference between user requirements and system specifications in the ATM example, we know that swiping the card and prompting for a PIN are requirements, while reading the card details and a 4-digit PIN are specifications.

1 / 1 point

- ☒ True.
- ☐ False.

Correct

True!

3. The purpose of the WRSPM model is to ensure that:

1 / 1 point

- ☒ Specifications meet the requirements.
- ☐ Requirements meet specifications.
- ☐ None of the above.

✓ **Correct**

True! It is crucial that the specifications truly represent the requirements and not the other way around.
